

Construction Update

BO 1444(60) Hartford

[Hartford Bridge #7 Replacement Project]

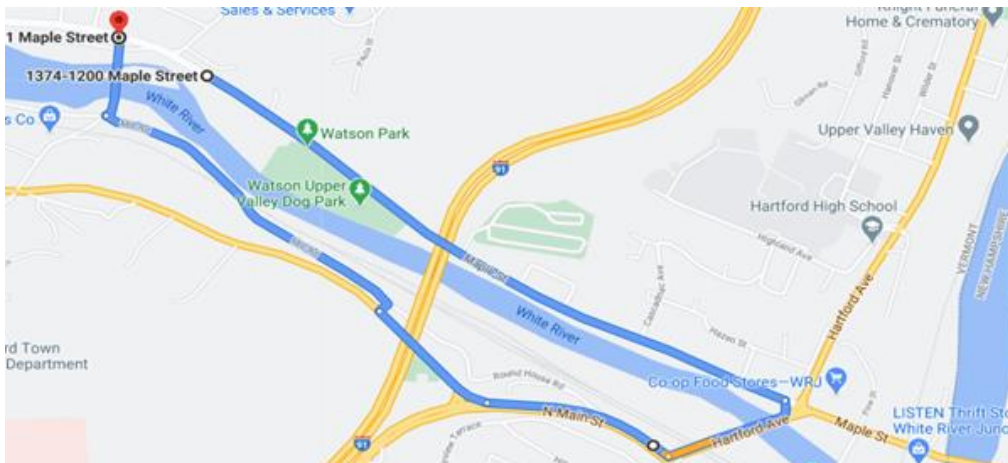

DATE: Friday, July 28, 2023

TRAFFIC IMPACT AND DURATION: The closure of VT Route 14 (VT 14) continues between Ferry Crossing Road and Christian Street. This 60-day road closure will detour traffic along a signed route on the VA Cut Off Road, Mill Road, U.S. Route 4/5 and VT 14. Pedestrian and bicycle access will be maintained through the closure area.

No other traffic impacts are expected throughout the project limits between Monday, July 31 and Friday, August 4.

CONSTRUCTION ACTIVITIES: Causeway reconstruction and drilled shaft foundation work will continue. Crews will begin installing curbing and sidewalk on the south side of VT 14. Crews may begin forming the bridge abutments.

The recent storm caused damage to the causeway that was installed to facilitate construction activities. While the storm set the project back a few weeks, the new bridge is still planned to reopen in late 2024.

LOCATION: The Hartford BO 1444(60) project is a full bridge replacement and realignment (at Christian Street) of bridge #7 over the White River and Town Highway 98.

PROJECTED COMPLETION: Fall 2025
