

## **Public Notice**

### **New Automatic Gate on Wilder Dam Road**

Great River Hydro, LLC has installed a new automatic gate on Wilder Dam Road for added security at its critical energy infrastructure located there. The gate will automatically open and close on the following daily schedule:

#### **Automatic Gate Operating Hours:**

**Opens: 6:00 AM**

**Closes: 5:00 PM**

#### **Public Access:**

While security at our critical energy infrastructure is paramount, we understand and appreciate the public's use and enjoyment of the surrounding riverfront lands and we are committed to providing a safe and enjoyable environment for all visitors. The gate will remain open between 6:00am and 5:00pm daily to facilitate continued public access.

Vehicular access beyond the gate will be restricted when the gate is closed at 5:00 PM. Visitors are kindly requested to plan their visits accordingly and exit the area before the gate's closing time. The adjoining Kilowatt Park South and associated parking area will remain accessible seasonally during the spring through late fall as managed by the Hartford Parks & Recreation Department.

We appreciate your understanding and cooperation as we work to enhance safety and security in this area.

For any questions or concerns, please contact Matthew Cole, Community Relations, 603.498.4421.
